THE MOST SIGNIFICANT REFERENCE PROJECTS 2008–2025

DUBEŇ LOOKOUT TOWER

Žilina
Slovakia

The Dubeň Lookout Tower, standing over 27 meters tall, offers visitors a completely new perspective to Žilina. The construction emphasized the use of high-quality and durable materials, as well as aesthetics. The steel structure is complemented by wooden cladding, allowing the tower to blend naturally into the surrounding landscape.

LOGSPOT LOGISTICS AREA

Logatec
Slovenia

Our extensive experience in constructing industrial halls across the Czech Republic, Slovakia, and other countries has been instrumental in the development of Slovenia's most modern logistics park—LOGspot Logatec. This project encompasses a 26,000 m2 warehouse facility aiming to meet the BREEAM „Very Good" certification standards.

KLOKAN SHOPPING CENTRE

Úpice
Czech Republic

The shopping center complex consists of single-storey hall buildings with a flat roof. The sales areas have direct access from public areas, especially the customer parking lot. They are seamlessly connected by hand warehouses, technical rooms and social facilities. The buildings are arranged in the shape of the letter „L".

PURPOSIA GROUP

THE MOST SIGNIFICANT REFERENCE PROJECTS 2008–2025

SEDLČANY COMUNITY CENTRE

Sedlčany
Czech Republic

The building received the prestigious award of Building of the Year 2020. The jury appreciated the complexity of the entire solution, the interpretation of the main mission and the excellent solution of the urban design of the site. The designers of the building are A8000 and STATIKON Solutions.

PHOENIX LOGISTICS CENTRE

Prague
Czech Republic

A new logistics hall, part of which is built as an underground floor due to the sloping terrain. The interesting feature of this project is the large proportion of modern technologies for storing and retrieving products, such as automatic stackers, conveyor belts, etc.

TOYOTA - LEXUS SHOWROOM

Košice
Slovakia

The construction of the atypical showroom, which is striking from afar with its robust appearance, took just 12 months despite the coronavirus pandemic.
The complete supporting and auxiliary steel structure as well as the sandwich panel cladding were designed using the modern BIM system.

PURPOSIA GROUP

THE MOST SIGNIFICANT REFERENCE PROJECTS 2008–2025

ZAVADILKA WELLNESS HOTEL

Prostřední Bečva
Czech Republic

Hotel Zavadilka has undergone extensive reconstruction that restored its original function and gave it a contemporary appearance. The original building was expanded with an annex and an additional floor, resulting in a modern hotel complex with technical and relaxation facilities.

ANTRACIT SPOT

Žilina
Slovakia

Argi Academy offers a top-tier sports center tailored to young talents as well as movement enthusiasts. The building includes a gymnastics hall, a professional bouldering wall, indoor and outdoor parkour zones, a ballet studio, a functional area for strength and conditioning training, and a pool for baby swimming. The complex is complemented by a Finnish sauna and a cooling tub.

RONALD MCDONALD'S HOUSE

Prague
Czech Republic

The construction of a four-story building for short-term accommodation of patients and their relati-ves within the Motol University Hospital complex provides modern, comprehensive facilities, inc-luding a day room, a kitchen with a dining area, and a laundry room.

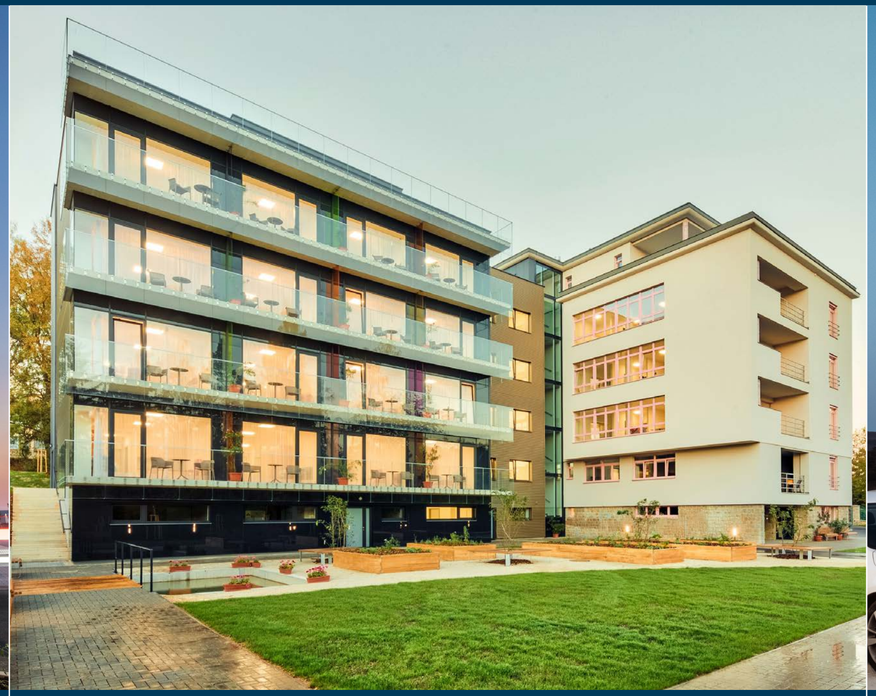
HSF SYSTEM
PURPOSIA GROUP

THE MOST SIGNIFICANT REFERENCE PROJECTS 2008–2025

XXXLUTZ DEPARTMENT STORE

Nitra
Slovakia

The department store introduces a modern retail hall with distinctive architecture. The facade is characterized by illuminated elements, and the building is also equipped with a photovoltaic system and stormwater management solutions. The project thus combines aesthetics with sustainable technical features.



RETIREMENT HOME

Dačice
Czech Republic

A sensitive reconstruction of the existing hospital pavilion is complemented by a modern extension of a new wing, which offers top-quality social care connected with medical services and comfortable senior living.

FANUC

Nitra
Slovakia

The modern administrative and production facilities for an international company specializing in automation and robotics are based on the industrial architecture typical of hall-type buildings. The dominant feature of the structure is a yellow facade cladding supplemented by a fixed louver system.
